SUMMARY

- ◆ Extensive IT expertise cultivated over a 4+ years university tenure and 11+ months in front-end development, complemented by ongoing 7+ months full-stack development training at an IT School based in USA. Proficient in HTML, CSS, JavaScript, React.js, Node.js, and APIs.
- ◆ Academically distinguished as a high-honor student in Management Information Systems with a 3.76 GPA.
- ◆ Exemplary IT professional with military leadership, spearheading 4 German and 1 French mission-critical NATO exercises. As a pivotal member of the planning team, orchestrated scenario-based mission executive tasks and injections using cutting-edge IT tools.
- ◆ Customer-related experience with a cafe for 2 years in a burgeoning Turkish tourist area, refining operational and customer engagement skills essential for translating user needs into top-tier UI/UX solutions.
- ◆ Goal-oriented, leveraging a disciplined military approach, strategic management insights, and hands-on IT skills to propel innovation in the tech realm. Committed to achieving targets, such as an 80% website conversion rate increase through strategic code and design enhancements.

WORK EXPERIENCE

- ◆ **Front-End Developer**
Freelance - Ankara, Turkey Jul 2023 – Present
Accumulating 11+ months of expertise in web programming with an emphasis on JavaScript, React.js, and Node.js by completing 5 front-end and 2 back-end projects, as well as numerous small-scale projects to deepen learning challenges. Skills were enhanced through a full-stack development course, resulting in remarkable accomplishments in the sector. Demonstrated ability to design efficient and maintainable code, resulting in a 30% reduction in overall project development time. Proficiency in HTML and CSS, as well as expertise creating 100% responsive and cross-browser compatible layouts.
- ◆ **Restaurant/Cafe Manager**
Cafe Nebula – Trabzon, Turkey Jan 2022 – Jun 2023
In addition to the development of applications related to the cafe's website, online menu, and order management, aiming to cover five distinct categories, including breakfast, lunch, cold beverages, hot beverages, and desserts, the IT-centric strategy has been meticulously cultivated to shape the user interface and user experience for Cafe Nebula, fostering seamless connections with consumers both in the digital realm and face-to-face interactions. This effort has garnered significant acclaim, exemplified by an impressive 4.8-star rating derived from over 700 Google reviews.
- ◆ **Military Officer**
Turkey, Germany, Bosnia-Herzegovina Aug 1994 – Aug 2021
An experienced military leader with 25+ years in strategic roles and IT expertise. Played a key role in 5 significant NATO exercises, with 4 conducted in Germany and 1 in France, emphasizing IT-driven scenario planning. Recognized by superiors for managing diverse IT projects.

TECHNICAL SKILLS

HTML | CSS | JavaScript | TypeScript | React.js | Node.js | Express | MongoDB | MVC | JWT | Postman | Redux | SASS | Bootstrap | Tailwind CSS | Material UI | Figma | Axios | Yup | Toastify | Formik | Firebase | Python | SQL | Git | GitHub | APIs | Swagger | Excel | Jira | Notion | Medium | Canva | Photopia | OOP | RESTful APIs | Authentication | Authorization | Validation.

SOFT SKILLS

Leadership | Problem Solving | Brainstorming | Resilience | Discipline | Continuous Learning | Motivation | Empathy | Customer Focus.

PROJECTS

- ◆ **[Portfolio Web Site](#)**
An online, single-page web application has been meticulously crafted to showcase the developer's skills and portfolio, along with links to their social media profiles. Developed using a blend of 3 widely used tools as HTML, CSS, and JavaScript, this application has undergone deployment on a hosting server for accessibility.

- ◆ [Calculator](#)
Developed an operational calculator via HTML, CSS, and JavaScript, showcased on GitHub Pages.
- ◆ [YouTube Video](#)
Crafted a 3-minute-long slide show using Proshow/Photopia, featuring original photography and videography.
- ◆ **Stock-App (-- --- ---- Link)**
 - The capacity to access, add, amend, or delete items, businesses, brands, sales, and transactions; and the ability to manage inventories and orders through a single page web application.
 - Developed 10+ custom components using React, resulting in increased efficiency and reusable code for future projects.
 - Implemented advanced state management techniques using the Redux Toolkit, leading to a 30% increase in overall application performance and stability.

EDUCATION

- ◆ **Anadolu University** – Management Information Systems (*bachelor's degree, GPA: 3.76/4.00*) Sep 2019 - Aug 2024
- ◆ **Yeditepe University** – System Engineering (*master's degree, GPA: 3.79/4.00*) Oct 1999 - Dec 2000
- ◆ **Military Academy** – System Engineering (*bachelor's degree, GPA: 3.41/4.00*) Sep 1994 - Aug 1994

ARTICLES & PUBLICATIONS

- ◆ [Mastering the Essentials: React's "useState Hook" Explained for Beginners](#)
Comprehensive primer on mastering the 'useState' hook within React functional components, emphasizing the pivotal aspects of efficacious state governance, component reusability, and augmentation of performance.
- ◆ [Bootstrap vs. Tailwind CSS: Navigating the CSS Framework Landscape](#)
An evaluative comparison of 2 commonly used styling methodologies, Bootstrap and Tailwind CSS, examines their respective approaches to aesthetic customization in web development.
- ◆ [Familiarity with CSS Margin and Padding](#)
In CSS, the box model governs element rendering and structure on webpages, encompassing margins, borders, padding, and content, crucial for layout and aesthetic refinement.
- ◆ [Master Thesis No: 97542](#)
Development of a Cellular Manufacturing Design with Flexible Part Routings
An audit of a military vehicle workshop showcased cellular manufacturing's efficiency, using SPSS to model reduced transit times and smoother order processing. The strategy cut costs by \$195,000, reduced machinery needs by 12%, total number of machines decreased from 83 to 73, and improved throughput and flexibility, with the free cell concept optimizing material flow and reducing inter-cell movement.
